

# ADNET is Your Partner for The Modern Workplace

ADNET is a Microsoft Cloud Partner Program member with three Solutions Partner designations: Modern Work, Business Applications, and Infrastructure Azure with a Microsoft Windows Virtual Desktop Specialization. We maintain Microsoft Premier Support for Partners as part of our solution offerings for our clients.

We partner with customers to modernize workplace communications and operations, increase efficiencies in security, productivity, and communications, and effectively shift to a hybrid or remote workplace using Microsoft 365.

Innovation starts with our clients. We serve over 30+ cities in North America through our 20+ partners, allowing us to drive and assist with adoption and engagement. We challenge the longstanding ineffectiveness of traditional IT services by showing up differently and providing an unmatched service experience.
